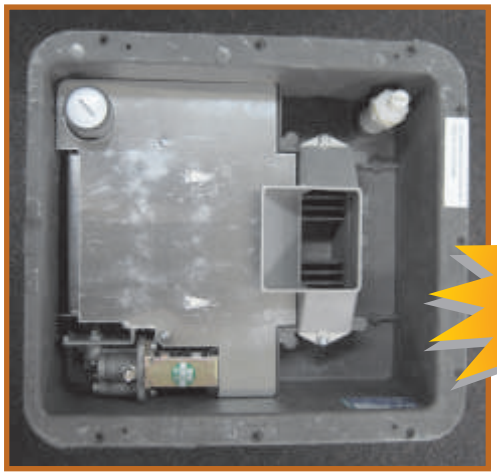
HENRY 9 LITRE HOT WATER SERVICE

9 litre capacity



Fully Australian Approved

Gas/ 240volt

The new "Henry" compact 9 litre 240 volt/Gas operation hot water heater with 12 volt ignition is suitable for a shower or family washing. The unit is installed through the wall so that only the flue is visible from the outside. It has a slim shape for the narrowest of spaces and is easy to install and maintain. Furthermore the overall dimensions of the "Henry" are compatible with the old Carver heaters making it an ideal replacement.
