

WALEX BIO-PAK EXPRESS

NEW IMPROVED PORTION SIZE - Just drop it in!

Natural enzyme deodoriser and waste digester for cassette and portable toilets.

Pre-packaged portion control - no spills. The advanced enzyme formula of Bio-Pak Express removes odours and cleans the holding tank with rapid breakdown of waste and paper.

- 100% biodegradable
- Easy to handle
- Easy to use
- Suitable for all cassette toilets, holding tanks & portable toilets
- Dissolves quickly
- Septic tank safe

Bio-Pak Express is the result of Walex's extensive research into discovering new, highly effective natural enzymes to break down odour and liquefy waste. Bio-Pak Express starts working immediately to control odours and break down solids in the waste tank, including all types of paper. Bio-Pak Express is completely safe for the environment and septic tanks. No need for messy liquids or chalky tablets!

Directions for use:

Add one Bio-Pak Express sachet into the holding tank by flushing or direct add with 2 litres of water to dissolve. Add more water for a larger waste holding tank. One sachet controls odours, and treats waste in holding tanks from 10 litres to 25 litres capacity. Although this is not needed, additional perfume may be added by adding additional sachet into the top fresh water holding tank. Also effective in treating grey waste water.
