FIAMMA TURBO PREMIUM ROOF VENT WITH MOTOR
044583
High quality and durability thanks to the elegant external aerodynamic profile top, this vent does not require the use of a spoiler. During high-speed testing, noise and vibrations were greatly reduced. The outer cover and exclusive patented rubber seal, guarantee a watertight system and ensures that rain is displaced. ABE approved. Made with high quality UV-ray resistant materials. Interchangeable with the old 40x40cm Fiamma vents and with vents from 36x36cm to 42x42cm thanks to the reinforced frame. Supplied with permanent air flow ventilation and mosquito screen. Features a large 10 blade fan with 12V DC variable speed motor. It changes and refreshes the air inside your vehicle within seconds. The electronic circuit ensures a rapid, problem-free, change of rotation. The transparent grating permits maximum air circulation and filters light.

The Premium version of Fiamma Turbo-Vent has been given a modern design with advanced finger-touch controls; the state of the art interface is completed by brand new multicolor LED lights.

Speed setting and switching now have acceleration ease which helps saving the Turbo-Vent motor and the vehicle control unit.
